

# Gokul J

## Full Stack Developer

Chennai, India 601301 | +91-9080703491 | [jgokul823@gmail.com](mailto:jgokul823@gmail.com)

### Career Objective

---

Results-driven and detail-oriented **Software Engineer** with hands-on experience in developing responsive and user-focused web applications. Proficient in **Python, HTML, CSS, JavaScript, and React JS**, with strong knowledge of **MySQL** for database management and integration. Skilled in using modern tools and frameworks such as **GitHub, Bootstrap, and Tailwind CSS** to build efficient, scalable, and visually appealing interfaces. Adept at writing clean, maintainable code and collaborating in agile environments to deliver high-quality software solutions. Passionate about continuous learning, modern web technologies, and optimizing user experience through innovative front-end and back-end practices.

### Education

---

B.E Computer Science – Tagore Engineering College, Chennai (04/2025) GPA: 7.9%

Class XII: Computer Science – Valluvar Gurukulam Higher Secondary School, Chennai (01/2020) GPA: 77%

Class X – Seventh Day Adventist Matriculation School, Chennai (01/2018)  
GPA: 70%

### Experience

---

#### Internship:

Completed a Web Development Internship at GB Tech Corp, Tambaram, where I developed a responsive educational website using HTML, CSS, JavaScript, Python, and SQL. Worked on implementing user authentication, database integration, and dynamic content management, ensuring cross-browser compatibility, scalability, and performance optimization, while collaborating in an Agile environment to meet project deadlines.

### Project

---

#### AI Legal Document Analysis

- Developed an AI-powered system to analyze **FIRs and affidavits** for automated review and legal insights.
- Implemented **Python-based NLP models** to extract key information and suggest relevant legal provisions.
- Designed a structured database in **SQL** to store and query legal documents efficiently.
- Improved document processing speed and accuracy, reducing manual effort in legal review.

#### Food Ordering Website

- Developed a food ordering web application using React.js with a responsive and user-friendly interface.
- Implemented dynamic menu rendering with search and filter options for improved user experience.
- Built real-time cart management and checkout flow using React Hooks and state management.

- Designed reusable and modular components to ensure clean, maintainable, and scalable code.

## Portfolio Website

- Designed and developed a **responsive personal portfolio website** to showcase projects and professional skills effectively.
- Applied **modern UI/UX principles** to deliver a clean, intuitive, and visually engaging user experience.
- Enhanced **performance and accessibility**, ensuring fast load times and compatibility across all devices.
- Integrated **interactive features and smooth animations** to improve user engagement and navigation flow.

## Technical Skills

---

**Languages:** Python, HTML, CSS, JavaScript, TypeScript, MySQL.

**Frameworks / Tools:** React JS, Bootstrap, Tailwind CSS, GitHub .

## Known Languages
